STRIP IS NECESSARY TO US, STATES GRIESBACH

Shows Why Road East of Rockies Preferable to B.C. Route.

DISPOSITION EXISTS TO FORWARD PROJECT

This City on Air Line Drawn From Chicago to Territory.

That a movement is now on foot looking toward the consummation of an immense deal between Canada and the United States, which will prove of the most far-reaching international and world-wide consequence, and which has particular regard to the future of the populous part of the United States with the central portion of Alaska by a system of railways connecting Edmonton, partly built, partly building and partly planned, was the statement made by Major W. A. Griesbach in the Empire auditorium today, on the occasion of the farewell to those who will go to Toronto next Saturday night.

Major Griesbach at first referred to the effects on the world's commerce and especially that of the Pacific coast, the Panama canal and the awakening of Asia would have, also to the fact that the United States government has already appropriated \$40,000,000 for a railway from the coast into Alaska on the building of which the force employed on the Panama canal would be used.

Depends Entirely on Navy

"At present," said the speaker, "the United States depends on its navy for the defence of Alaska. If by any chance, the navy was overwhelmed by another power, there would be no way of defending Alaska under present conditions. It would be absolutely defenceless."

"You all know the history of Alaska, how the United States bought it from Russia. You know how there arose a dispute as to the proper boundary and it was decided in such a way that the United States owns a narrow strip of land running half way down the coast of British Columbia, and only from 20 to 100 miles wide.

"Now, a coast line without a hinterland is not of much value. That strip of land is necessary to us, but not to the United States. Its presence will in the future prove to be a constant source of irritation to both countries. There will be the question of customs duties, the control of water power and so on."

Resolutions Already Submitted

"There are some in the United States—strategists among them—who wish to get rid of the Panhandle and two resolutions have been introduced in Congress. One looked to the sale or transfer of the Panhandle, as the narrow strip of land is called, to Canada, while the other suggested asking the president of the United States to negotiate with Canada or Russia to build a railway east of the Rocky mountains to Alaska, so that it could be used to transport troops and munitions of war in case of an enemy landed on the coast of Alaska."

"Our proposal is to think these two proposals into one, that would be for the United States to cede or sell the strip of land to Canada, and in return Canada would build a road to Alaska, connecting the central portions of the territory."

ASQUITH PROMISES AMENDMENT TO THE HOME RULE MEASURE

London, June 11.—Premier Asquith announced in the house of commons today his intention to introduce the promised bill to amend the Irish home rule bill before any further progress is made by the house of lords, with the second reading of the measure. The Unionists thus far have won the day with their insistent demands that he should take this action.

The lords will be entirely free to change the amending bill as they think proper, and it is generally expected that they will insert provisions for the unconditional exclusion of Ulster from the operation of the Irish home rule bill, and also for the protection of the protestant minority in the rest of Ireland.

The Unionists in this way will be enabled to test how far the government and the Irish Nationalists are prepared to go in the direction of a compromise.

The new bill is not likely to be brought into the house of lords before the week beginning June 21.

WAR COMING FOR GREECE AND TURKEY

London Times Says That the Unrest in the Balkans has Become Acute—The Porte is Planning the Reconquest of Saloki and the Reoccupation of Macedonia

London, June 11.—Another war between Greece and Turkey is foreshadowed today by the Times, which says the unrest in the Balkans has become acute. Several of the states have recently been employed in clearing their newly acquired territories of "undesirable" elements and the Bulgarians have been the principal sufferers.

The unrest is attributed by the newspaper to the drastic policy of the young Turks in expelling all Greeks from Asia Minor and Turkish Thrace. It believes this policy is a prelude to a declaration of war upon Greece, the main object being the reconquest by Turkey of Saloki and the re-occupation of Macedonia.

LAURIER AND BORDEN, FOR PARLIAMENT, SAY FAREWELL TO GOVERNOR

Regret Expressed at Losing the Services of a Man Who Had Provided Himself a Man in Every Sense of the Word—Domestic Virtues and Solid Qualities Appreciated.

Ottawa, June 11.—On the motion of Premier Borden, seconded by Wilfrid Laurier, parliament this morning adopted a farewell address to their royal highnesses the Duke and Duchess of Connaught, "reiterating their appreciation of the high praise expressing appreciation of parliament and Canadian people of the splendid services they have rendered the dominion."

Premier Borden, in opening, pointed out that with the growth and development of the overseas dominions the powers and the responsibilities of parliament have continually increased so that with certain limitations the Empire is today a federation of sister nations, united by the ties of a common and undivided allegiance. He said that Canada had been fortunate from the first in the selection of the men called to fill the office of governor general.

"Nearly three years ago," continued Mr. Borden, "the Duke of Connaught came to our shores as governor general of Canada. It was by no means his first visit to this country for he had served with his regiment at Montreal when this dominion was in its earliest infancy and before the progress and development of later years had set their mark upon its history."

His Record Distinguished.

"As governor he had no unequalled opportunity of studying and understanding all that has been accomplished in the great march of events since the days of 1870. He brought with him the record of a distinguished and honorable career in the public service as a soldier and diplomat. That career enabled him to know and to realize the Empire, to comprehend its wonderful power and its still more wonderful possibilities and to understand the forces that served to unite its vast dominion in allegiance."

"I am convinced that his course as constitutional representative of his majesty will add additional lustre to that record. He undertook the great responsibility of the office, which he now holds at the personal request of King Edward VII whose high example in the course of his royal highness has pursued as governor general of this dominion."

The premier observed that the duke has availed himself to the fullest extent of the opportunity which had been offered him of studying the conditions of their national life and of observing and understanding the ideals and aspirations by which it is animated, which, owing to the extent of the territory, was a great task.

Counted as Optimist.

"To accomplish all that he desired," added the premier, "His Royal Highness has not spared himself and he may be assured that his visits will be held in happy remembrance by our people in every province from the Atlantic to the Pacific. He has associated himself with sympathy and indeed with enthusiasm in all that would be advantageous to this country, and as to the future he has been an optimist amidst a nation of optimists."

Mr. Borden referred to the deep sympathy of the people of Canada at the time of the serious illness of the Duchess of Connaught. "In offering our very sincere congratulations," said the premier, "that Her Highness has made such complete recovery of her health, we trust that she and the Princess Patricia, who, with equal tact and graciousness has also been to our people, may retain the kindest remembrance of their sojourn in this dominion."

In saying farewell to His Royal Highness we hope that many years of active service to the empire lie before him, and that in those years to come his association with this country will recall to him as it will to the Canadian people."

Sir Wilfrid Laurier said that it would be ungrateful on the part of the Canadian people to fail to acknowledge the advantage of every opportunity to testify to the deep regret caused by the early departure of Their Royal Highnesses from Canada. "This was not much because of the fact that we are going to lose the services of a prince of the royal blood, but for the higher reason, that we are about to lose the service of a man who has proved himself to be a man in every sense of the word."

Canadians Are Democratic.

"The Canadian people are evidently a democratic people, and the pomp and ceremony which surrounds royalty does little or nothing to increase our respect for the crown. But the Canadian people appreciated those domestic virtues and solid qualities which are the characteristics of Their Royal Highnesses. On all occasions the Duke of

Ingersoll's Niece on Honeymoon Bride Breaks with Her Family Sticks to Chauffeur Husband

MRS. ARTHUR LIBERTY, whose uncle, Robert H. Ingersoll, says she must choose between her chauffeur husband and her wealthy relatives.

New York, June 11.—Mrs. Naomi Clare Noland, niece of Robert H. Ingersoll, of watch fame, and her husband, who was her uncle's chauffeur, have left for St. Johnsbury, Vt., on their honeymoon trip. In taking this step the bride made her choice between her relatives, who have tried to get her to reconsider the secret marriage, and her husband.

Mrs. Ingersoll, who has acted as mother to her talented niece for five years, was greatly distressed when she heard of the departure. She had been in the city all day trying to persuade her niece not to join her husband.

"I am afraid it is too late," said Mrs. Ingersoll. "I tried very hard to prevent this. I offered to take her west to her mother for three months, or even abroad for that time, and then if she found she still loved Liberty, we would not have let it go so badly."

They were married on Friday, May 15, and parted at the altar," continued Mrs. Ingersoll. "Naomi went back to her apartment in Miss Bisset's house, where she is studying music. Liberty came back to Oyster Bay and stayed the whole week with us, until his time was up. We had dismissed him for insolence and incompetency. We had no idea of the marriage. He was like a bolt out of a clear sky to us."

"As soon as we learned of it, we brought Naomi back to Oyster Bay and tried to get her to reconsider and take our advice until she had time to thoroughly settle her mind as to such an important step in life."

Just before his departure, Liberty told his friends here that he was going into business in St. Johnsbury, where he said two "pen pals" were awaiting him. He declares his parents are well-to-do.

Mrs. Ingersoll was much incensed at her former chauffeur.

"If he had come to me like a man and told me I would not have had any objection, provided my niece showed me she loved him," he said.

"This unhappy thing has come upon us as a tragedy. The girl has been like a daughter, and this foolish act has, of course, blighted her life and her prospects."

Decrease Amounts to Seven and a Half Per Cent of Previous Rates. Alberta and Saskatchewan Put on Basis of Equality With Manitoba. Three Provinces Linked in One Zone. Statement Showing What Alberta Has Gained.

As a result of the findings of the Board of Railway Commissioners in the recent western freight rates case Alberta becomes part of a zone extending from Fort William to the foothills, within which the rates charged by the railway companies will be practically all on the same basis, instead of there being different rates in the different provinces. It is estimated that the reductions represent seven and a half per cent on the rates previously in force in this province. Any further reductions that are granted to Manitoba will now, as a matter of course, be granted to Alberta and Saskatchewan.

The interests of Alberta and Saskatchewan were looked after by M. K. Cowan, K.C., the well-known Toronto barrister, who put up a big fight for these provinces. Mr. Cowan was retained by the governments of Alberta and Saskatchewan.

Sixteen requests were made by Mr. Cowan. Of these, 10 were granted entirely; three were partially successful, one failed, and in one case the rates were changed during the hearing so as to effect heavy reductions, and this was considered to be partly the result of the efforts put forward by Mr. Cowan on behalf of these provinces.

The first three requests made by Mr. Cowan on behalf of Alberta, were as follows:

(1) The establishment of the same class of commodity rates from eastern Canada to stations in Saskatchewan and Alberta on all articles consumed or used in these provinces as prevailed between points in eastern Canada.

(2) The establishment of the same rates both class and commodity, from Fort William to points in Alberta and Saskatchewan on all articles used and consumed in these provinces as prevail in points in eastern Canada.

(3) That the rates between distributing centres in Manitoba, Saskatchewan and Alberta be reduced and placed on

EVERYTHING IN READINESS FOR THE POLICE PROBE

O. M. Biggar, K.C., Spends Busy Day Interviewing Witnesses—Is Sought by All Classes, Well Known Citizens and Men and Women of the Underworld—Declines to Make Announcement as to Order in Which Evidence Will Be Called—Justice Scott Will Sit Saturday Morning, if Counsel Wishes.

Speculation is rife as to the phases which will be touched upon in the first day's proceedings of the police investigation which opens tomorrow before Hon. Justice Scott at the Court House, McLaughlin avenue. O. M. Biggar, K.C., counsel for the city in the investigation, was exceedingly busy all day today interviewing witnesses who will testify before the inquiry.

During the past day or two Mr. Biggar has been probably the busiest barrister in this city in consequence of the number of calls upon him he had to give orders that he was not to be disturbed while attending interviews. Those who are calling upon Mr. Biggar belong to all classes, well known citizens and men and women of the underworld.

Everything is in readiness for the opening of the investigation at ten o'clock tomorrow morning. Justice Scott today stated that he was prepared to sit in the morning, but would not depart from his usual practice in reserving Saturday afternoon for recreation.

Some of the evidence which is brought before the commission tomorrow is likely to be in the nature of a surprise. Mr. Biggar declined when requested by newspaper men today to say what program he intended to follow in the investigation. Ex-Chief Lantry, who has been out of the city on his farm during the last few days, is expected back tonight ready for the opening of the proceedings tomorrow.

A. W. Coone, secretary of the Citizens' committee has opened an office in Room 441, Taylor Building. Speaking to the Capital today Mr. Coone said that the office will remain open during the investigation, and all who have any information which they would like placed before the commission may consult him. Although the office was only opened on Wednesday a number of citizens have already availed themselves of the opportunity of getting in touch with Mr. Coone and the committee working on the matter.

Mr. Coone said that he could not, of course, say what the nature of the information coming to him was owing to the fact that it was given confidentially.

TRY TO BLOW UP CORONATION CHAIR

London, June 11.—An attempt to blow up the coronation chair which has been in Westminster Abbey since 1296, was made this evening. The outrage is attributed by the authorities to militant suffragettes.

The chair generally called St. Edward's chair out of respect to Edward Confessor, near whose shrine it stands, was taken by order of King Edward I to hold the coronation stone or "stone of destiny," on which the ancient Scottish kings were crowned, when they were crowned. It was captured by Edward I from the Scots. The damage caused to the chair by today's explosion was slight. The explosive had been placed beneath it but its effects seemed not to reach the chair itself, which is of solid oak, covered with gilding and ornamental work.

The famous old stone, however, was badly chipped.

The history of the stone so far as it is known, goes back to the year 850 when it was placed in the Abbey of Stone, Perthshire, by King Kenneth. It is not known whence it originally came, but a legend connected with it says it is the identical stone upon which the biblical patriarch, Jacob, laid his head when he had the vision of the angels ascending the ladder that reached to heaven. It is known that the kings of Scotland for centuries were crowned while seated on it.

The explosion occurred while Reginald McKenna was talking on the suffragette question in the house of commons. The explosion was plainly heard in the parliament house and chamber of the commons, and peers flocked into the parliament square to ascertain what had happened.

EDMONTON HEARS LITERARY TREAT BY CONAN DOYLE

Great Novelist Talks on Various Interesting Subjects to Canadian Club.

"GET A DEFINITE LINE OF THOUGHT"

Sir Arthur Has Advice for Those Who Wish to Broaden Minds.

The address given by Sir Arthur Conan Doyle to the Canadian club in the Empire hotel dining room yesterday afternoon was an intellectual treat. It was short—much shorter than those who crowded the hotel dining room wished. It is safe to say that his audience enjoyed it even better than the ever enjoyable of his truly wonderful Sherlock Holmes stories—at least in the same length of time.

Sir Arthur talked about Britain, which he painted in a far different light to some who are wont of Germany's sweeping down upon the island Kingdom. He told of a few of his impressions of Canada—impressions which he said he admitted were superficial because of his short stay here so far—in a way that a little different than impressions on this country have ever been told before. And lastly, he touched on that inevitable subject, with literature, and although he barely mentioned it, he opened up a wonderful world of thought to the minds of his auditors.

As Dr. H. M. Tordy, who proposed a vote of thanks, stated, it probably sent every one of them with some definite line of thought initiated and would result in something more than thought—something that would be of use to them.

Sir Arthur began by declaring that he had done little else but talk ever since he landed in Canada. Across 2,000 miles of country, he had talked to newspaper men, to clergies, and to friends, and he had been laughing at the most remarkable part of it was that he had practically nothing to talk about. At first he could give Canadians some British news, but now he had been away from home for some time and he was afraid that he could not even do that.

Still Sound to the Core
"However," he continued, "there are some things in the old land which do not change, and one of them is that Britain is as sound to the core today as it ever has been."

Talks by any one "Economically" When you have a nation that can stand a budget of £200,000,000 and not budge, you have a nation that is not much the matter with it. In financial London is still the center of the world. The whole globe goes there for its money. Personally, I regret that all of it does not find its way inside the empire. I always believed that Canada would be better invested in Canada than in some unstable South American republic, and since coming out here and seeing a little of your natural resources, my opinions have been reinforced.

"Some people say that Britain's army is not strong as it was once. We learned our lesson in many African wars, never kill you'll be in a hole what you have. We have reserves that you cannot find particularly in any war books. It was estimated, for instance, that the country could put 75,000 men in South Africa, but the number of those we actually did put 425,000 there. That shows how impossible it is even for experts to figure what the country can do when aroused. If we could throw that many men into a country to which we had to haul everything from a distance of thousands of miles, how many could we throw into Belgium?"

Two Widespread Movements
"Movements still originate in Britain largely. The boy scouts movement was started by Baden-Powell, and there are thousands of them all over the country today, paying for their own uniforms. Then recently 200,000 old soldiers who had put away their swords, came forward without asking, just to show they could be counted on in case of need. When you see two such simultaneous movements, representing both the old and the young, there is nothing wrong with the country."

The little mosquito attacks of the suff-

Why Mrs. Mark Found Quick Relief in Dodd's Kidney Pills.

New Brunswick Lady Who Suffered for Six Years Tells How She Found a Speedy Cure.

Mrs. M. H. Barker, Gloucester Co., N.B., June 10.—(Special)—For some five or six years I was troubled with backache. I tried many tonics, but kept growing steadily weaker. I decided to try Dodd's Kidney Pills. They gave me almost immediate relief."

"This is the statement of Mrs. A. Mark, well known and highly respected here. Asked to give more particulars in regard to her case, Mrs. Mark said: "I was troubled with backache and gradually grew weaker. I had stiffness in my joints and cramps in my muscles and suffered from indigestion. I had heart fluttering and headaches, my sleep was broken and unrefreshing and I was always tired and nervous. I had dark circles under my eyes, I was irritable and often dizzy and had a bitter taste in my mouth in the mornings. I also had attacks of rheumatism."

"I just took three boxes of Dodd's Kidney Pills to me up."

Every symptom Mrs. Mark mentions is spelled kidney disease. That's why she found such quick relief in Dodd's Kidney Pills.

STOP WORK Suffered Ten Years Until "Fruit-a-lives" Cured Him

St. Thomas, Ont., May 22nd, 1913.

"I was troubled for ten years with the most distressing Constipation and Indigestion of the worst form. No one could have been worse with the trouble than I was for this long time. The pain from indigestion was so bad that many times I have had to stop work and lie down until the acute spasms passed away."

I took a lot of medicine—in fact, I guess I took about everything that was advertised—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-lives". I am mighty glad I did so for they seem to be made exactly for me.

They gave results in a very short time and I am now free from these diseases and enjoying perfect health.

We both think they are the best medicine ever made."

Z. J. EDGEWORTH.

Box 6, for \$2.50, trial size, 35c.

At each drug store or direct from Fruit-a-lives Limited, Ottawa.

frustrates and others. They don't worry us as a whole, though they certainly annoy those immediately concerned with their actions. The only real danger is impending war, and when we see Germany leaving a trail of £50,000,000 not giving any reasons, we simply have to say a tax on ourselves. The money they are borrowing their money, while we are not.

Towns Starting Up
"Then there are the new towns, some just starting up as a racer getting started for a race, others which are well on their way. This gives one's imagination a chance to work, thinking which of the towns will in ten years or so, become cities and which will not. Perhaps I am more qualified to speak on this subject than others here in Canada, about which I admit I have a very superficial knowledge. This is a huge country, and there are many small towns, but none of them are making great progress. It is remarkable that practically all the great drama and plays have been written in small towns. That was the case in Rome, Athens and the Holy Land. If greatness was determined by size alone, then Russia and China would be the greatest nations in the world, which we know is not the case."

Don't Read Fiction
"Taking an interest in the deeper side of life leads to fulness of manhood. A man who reads fiction is well on his way. This gives one's imagination a chance to work, thinking which of the towns will in ten years or so, become cities and which will not. Perhaps I am more qualified to speak on this subject than others here in Canada, about which I admit I have a very superficial knowledge. This is a huge country, and there are many small towns, but none of them are making great progress. It is remarkable that practically all the great drama and plays have been written in small towns. That was the case in Rome, Athens and the Holy Land. If greatness was determined by size alone, then Russia and China would be the greatest nations in the world, which we know is not the case."

Macaulay Great Man
"There doesn't seem to be much more to Macaulay, the man who lived for me than any other. When I was a boy of 18, first I read his history, and I was struck by the station and went and stood at Macaulay's grave, and I know now that my boyhood emotions were welling the right road, as I have the same feeling yet. Everybody should read Macaulay's history, as there are few who can couch it into such interesting words and be so liberal in religion and liberty as he."

Must Have Inclination
"You must read because you naturally want to read. Don't read a book because you think it is something you must read. Have the inclination and reading you have the inclination for. Read through a lot of books and if you see anything you would like to read, read it, and it will probably lead you to read something else."

HELP THE GIRLS!
CAN NOW TRANSPLANT ANIMAL TISSUE INTO SEPARATE ORGANISM

Paris, June 11.—A communication from Dr. Alexis Carrel, of the Rockefeller Institute, New York, dealing with the life of tissue independent of its organism, was read before the academy of medicine by Prof. Poincaré yesterday.

Dr. Carrel placed fragments of the heart of a 7-day embryo chicken in the plasma of a fully developed chicken in January, 1912. After it had been in contact with the plasma for 24 hours, the plasma began to show increased activity.

DEBUT OF NEW PRESIDENT FOR SOCIETY IN ALBERTA

Pontifical Royal Mass and Brilliant Banquet Features of Grand Finale.

400 GUESTS GATHER AT FESTIVE BOARD

Third Annual Convention of "Société du Parler Français" Closes Last Night.

Following the election of officers the convention of the "Société du Parler Français d'Alberta," was brought to a close last night by the delegates assembled in the city after the opening ceremonies on Monday.

In the morning pontifical royal mass was held at 9:30, Archbishop Légal officiating, assisted by Fathers Boutin, Groulx and Gélard. The choir for the occasion was under the direction of Mr. Berry, while Rev. Father Heu and Mr. Nap Lalonde were the soloists. Mr. and Mrs. L. Plante and Mr. and Mrs. E. Blouin took up the collection.

At 12:30 upwards of 400 assembled at a banquet tendered at the Corona hotel, where a most sumptuous repast was served by the prominent and the many present were Archbishop Légal; J. A. Gauthier, president of St. John's Institute; H. W. Gauthier, Hon. P. E. Leonard, J. L. Cote, M.P.P. and L. Brodeur. The chief speakers were Rev. Father Groulx, secretary general of St. John's Institute, Montreal, and Mr. L. A. Groulx. Both delivered short addresses and Father Groulx's humorous vein met with much applause.

Montréal, P.Q., June 11.—Reports from St. John's that General Carranza's answer to the last communication of the mediators had been transmitted to Niagara Falls were interpreted here as meaning that Rafael Zubarán, special constitutionalist representative in Washington, had been sent with instructions on which to draft the reply.

The contention has come from El Paso and other sources that the constitutionalists will refuse to declare an armistice, or that the subject would be known, but for the will to announce the intention of the constitutionalists to send delegates here, leaving indefinite the nature of the instructions given to the delegates. What the mediators would say in such a proposition is not difficult to surmise, but for the will to stand that unless an armistice is declared there will be no admission for the constitutionalists to Mexico. Nevertheless, the mediators have indicated they would not be adverse to discussing conditions in future with representatives of General Carranza if they came here.

The injection of the question of constitutional representation at this time would tend somewhat to divert the proceedings from the course they have been following.

Issue Clearly Drawn
The issue today is clearly drawn between the American government and the mediators. The latter have been insisting on two essential points—the character of the individual who is to be the provisional president, and the exact manner in which he is to be installed. The American government is asking that an out and out constitutionalist be chosen for president, but a man broad enough to respect the rights of the other political parties.

The American government is insisting that the triumph of the revolution should be recognized and a constitutionalist installed. The United States has undertaken the responsibility of solving the Mexican problem, because that which is being done in Mexico until the strongest factor—the constitutionalist—is put in absolute control. The alternative, it believes, would be a constitutionalist march on Mexico City. The attack on Zacatecas was regarded as indicating the inevitable trend of events if mediation failed. Another possibility is that if mediation is unsuccessful and fighting continues, foreign intervention will arise out of conditions of anarchy that would force the American army to move from Veracruz to Mexico City.

Maintain Personal Dignity
The American delegates for this reason maintain that questions of personal dignity, such as the election of a president, should be brushed aside and the method of transition devised which the constitutionalists would accept and from their ranks be chosen the leader of the new government who would satisfy the country. Neither General Carranza nor General Huerta is desired by the United States for provisional president, nor is any other of the prominent military chiefs. The Mexican delegates have not yet formally expressed their views, but they contend that the president must be a neutral, unaffected by the passions of any party. Such an individual, the constitutionalists feel, can be found.

The academic discussion here of the type of man is rapidly turning into a contest of wits between the individuals. No names have been advanced, but if the constitutionalists' representatives arrive here soon, the mediators feel confident that rapid progress will be made. With the idea that the constitutionalists will be here soon, but will not be admitted to the mediation, a suggestion is being considered whereby the Am-

THREE TO REPRESENT DEBENTURE HOLDERS IRRIGATION COMPANY

London, June 11.—News that a receiver has been appointed for the Southern Alberta Land company has been promptly followed by the announcement that a committee has been formed to represent the interests of the debenture holders in formulating a scheme for completing the company's irrigation system. The appointment of Sir William Pender as receiver and manager was intended to preserve the assets and facilitate the provision of necessary funds, pending reorganization. The members of the committee are Charles Loch, Francis Leonard Govett and Frederick T. Vane, all of whom are well known in the city by their high reputation in the city by their successful handling of the affairs of the Lakeview and Ivanhoe companies, since the Whitaker Wright smash. The Union Bank of Canada will undertake a half yearly series of various courses hitherto attended to by the Canadian agency.

GARRANZA'S AGENT TO CONSULT WITH A.D.C. MINISTERS

American Representatives Are Looking to Character of Huerta's Successor.

U.S. WON'T ALLOW THE NAMING BY PRESIDENT

Gillette Safety Razor

most clearly shows its "class." Wherever a man may choose to use it, afloat or ashore, the Gillette gives a clean, cool, comfortable shave, without pulling, gasping, or even irritating the skin.

Your Hardware Dealer, Druggist or Jeweler will gladly show you a wide range of Gillette—Standard Sets at \$5.00—Pocket Editions at \$6.00 to \$6.00—Combination Sets from \$6.50 to \$25.00.

Gillette Safety Razor Co. of Canada, Limited
Office and Factory—THE NEW GILLETTE BLDG., MONTREAL.

For the benefit of its objective patrons. A domestic help employment bureau provides opportunity for really deserving and willing girls to come in touch with mistresses of the better homes of the city desiring domestic service of this sort. Good positions are, through Miss Perry, the matron in charge, arranged for capable young women, and then the "Y" goes farther than that.

A Thursday club which all those placed through the agency of the employment bureau may join, is maintained the year round with its pastimes and so forth, and is an outdoor as well as an indoor nature. Social improvement is the aim and Thursday is the day because that is the usual one upon which young women in such employment are at liberty.

This "Y," with its manifold labors for the building of robust womanhood both physically and morally, is to carry on a three-day campaign to raise \$10,000 on Monday, Tuesday and Wednesday next. A ten dollar donation to the campaign will be accepted. The continuance of fighting in Mexico, which would be sanctioned if they remained, is a substantial one—without an armistice, the mediators believe, would be virtual approval of them, what they considered unbecoming warfare because the constitutionalists put to death federal officers and soldiers after capture.

The American government is insisting that the triumph of the revolution should be recognized and a constitutionalist installed. The United States has undertaken the responsibility of solving the Mexican problem, because that which is being done in Mexico until the strongest factor—the constitutionalist—is put in absolute control. The alternative, it believes, would be a constitutionalist march on Mexico City. The attack on Zacatecas was regarded as indicating the inevitable trend of events if mediation failed. Another possibility is that if mediation is unsuccessful and fighting continues, foreign intervention will arise out of conditions of anarchy that would force the American army to move from Veracruz to Mexico City.

Maintain Personal Dignity
The American delegates for this reason maintain that questions of personal dignity, such as the election of a president, should be brushed aside and the method of transition devised which the constitutionalists would accept and from their ranks be chosen the leader of the new government who would satisfy the country. Neither General Carranza nor General Huerta is desired by the United States for provisional president, nor is any other of the prominent military chiefs. The Mexican delegates have not yet formally expressed their views, but they contend that the president must be a neutral, unaffected by the passions of any party. Such an individual, the constitutionalists feel, can be found.

The academic discussion here of the type of man is rapidly turning into a contest of wits between the individuals. No names have been advanced, but if the constitutionalists' representatives arrive here soon, the mediators feel confident that rapid progress will be made. With the idea that the constitutionalists will be here soon, but will not be admitted to the mediation, a suggestion is being considered whereby the Am-

GIRLS TO RAISE \$20,000 FOR "Y" IN 3-DAY EFFORT

Monday, Tuesday and Wednesday Next Will See Big Campaign in Full Swing.

Meals Supplied at Nominal Cost for Business Young Women in City.

To one not familiar with the daily activities of the Young Women's Christian association, it may come as a surprise that here under auspices conducive to their highest welfare, no less than five score girls who have occasion to lunch downtown at noon, are accommodated within a pleasant cafeteria, and if the guest would rather, then there is a dining room.

Fifteen or twenty cents, depending on the food ordered, is the whole cost of luncheon—a substantial one—served in the cafeteria—while twenty-five cents secures a full course dinner in the large dining room. Without the knowledge of the difficulties which business girls encounter in procuring noon repast at a nominal cost, one can appreciate the service which the Y.W.C.A. supplies. This forms only one branch of the institution's opera-

Panama and the Canal
This beautiful big volume is written by Willis J. Abbot, a writer of international renown, and is the acknowledged standard reference work of the great Canal Zone. It is a splendid large book of almost 500 pages, 9x12 inches in size; printed from new type, large and clear, on special paper; bound in tropical red vellum cloth; title stamped in gold, with inlaid color panels; contains more than 600 magnificent illustrations, including beautiful pages reproduced from water color studies in colorings that far surpass any work of a similar character. Call and see this beautiful book that would sell for \$4 under usual conditions, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and only the \$1.20 (Sent by Mail, Postage Paid, for 1.60 and 6 Certificates)

Panama and the Canal
Regular Octavo size; text matter practically the same as the \$4 volume; bound in blue vellum cloth; contains only 106 photographic reproductions, and the color plates are fewer. This book would sell at \$2 under usual conditions, but is presented to our readers for SIX of the above Certificates of consecutive dates, and only the \$1.20 (Sent by Mail, Postage Paid, for 70 Cents and 6 Certificates)

TEMPERANCE BEER CONTAINS SEVEN PER CENT. SPIRIT

Sensation Sprung in Militia
Circles When Major Leonard
is Let Out.

REGULATIONS REGARDING LIQUOR WERE BROKEN

Action Taken by Militia Council
and Col. Sam Hughes
With Regret.

OTTAWA, June 11.—A sensation was sprung in militia circles last night when Major Leonard, in command of the sixth battery, Canadian Field Artillery, from London, Ont., was relieved of his command by the minister of militia and defence.

This action was the result of an investigation just concluded into the circumstances attending the seizure of a quantity of so-called temperance beer several days ago, in the lines of the London battery at Petawawa camp. As a result of the analysis by a competent analyst, it developed that there were 181 unopened bottles of genuine ale with nearly seven per cent. of proof alcohol. It is also estimated that about 100 open bottles contained the same quality of ale. Other bottles of the quantity of proof alcohol contained temperance beer, that is, 2.48 per cent. alcohol, which is 62 per cent. less than the regulation required, and as such, could be legally consumed in a militia camp.

When the beer was first seized it was thought that it was all "temperance," but the investigation just concluded has dispelled that idea, and it is understood that the minister of militia department in ordering the beer to be seized was much rendered by the officers commanding the battery, but as the regulation laid down in the department is that no intoxicating liquors be allowed within camp, the minister of militia was insistent that it be seized out. A telegram was despatched by Col. Victor Williams, adjutant-general, to Gen. Sir John Pope, commander of the artillery corps, at Petawawa last night, ordering that Major Leonard be relieved of his command.

Col. Sam Hughes, being interviewed last night, confirmed the announcement of the retirement of Major Leonard. He stated that the members of the militia council and himself had been questioning thoroughly, and that the decision caused them much anxiety and concern. He stated that he understood Major Leonard was a capable and competent officer and he regretted very much that the enforcement of the regulation as to liquor in camp caused the removal of the officer commanding the London battery. "But," he stated, "I must carry out the military regulation else we should have no discipline at all, and this is in other matters. Major Leonard may have been imposed upon with respect to this liquor, but he is an officer commanding the battery, to assist me in carrying out the military regulation, and as such, he was responsible. I may say this action had caused both the members of the militia council and myself much concern as we understood the removal of an officer who has hitherto proved himself satisfactory was at stake. But, I again repeat, regulations cannot be broken."

The London battery leaves Petawawa next Saturday, and until then will be commanded by the next senior officer to Major Leonard.

Court of Revision.
The court of revision will hold a session in the 1914 court room next on Monday at 2 p.m. The holding of the court on the south side is a new procedure and will be of great convenience to south side residents.

TELLS THEM WEST IS STRONG IN FAVOR FREE TRADE

Elevator Man Throws Down
Gauntlet to Canadian Manufacturers' Association.

WARNS THEM TO GO SLOWLY IN DEMANDS

Representative of Saskatchewan
Farmers Presents Their
Ideas at Montreal.

Montreal, June 11.—The address of Charles A. Dunning, of the Saskatchewan Co-operative Elevator company, before the Canadian Manufacturers' association at the Windsor hotel Tuesday afternoon, created a decided impression on the gathering. President C. B. Gordon congratulated Mr. Dunning, and at his suggestion the convention expressed its appreciation of the address by a standing vote. Mr. Dunning "spoke right out in meeting" in his remarks with reference to the association's tariff demands. He told the manufacturers very plainly that the feeling in the west was strongly in favor of free trade, and he intimated that if they were unresponsive in their demands it might lead to trouble between eastern and western Canada. Mr. Dunning said he came as a representative of the Saskatchewan farmers to present their ideas to the eastern manufacturers.

"Another question of interest dealt with was in connection with the report of the legislative committee. The discussion led to a suggestion that more manufacturers should go into politics, which suggestion was received with approval. In this connection the retiring president, Mr. C. B. Gordon, declined the invitation of the delegates to enter himself in politics. He stated that he would be too busy helping the west with the devaluation of the dollar to allow this. Other delegates took the ground that they would also be too busy to go into the political game."

The report on the workmen's compensation act, which contained some reflection on the Ontario government and the passage of their act in this connection, was adopted after a brief discussion.

The convention will conclude today with the election of officers. It is generally understood that Mr. R. G. Henderson, vice-president of the convention, will be the next president. Mr. Dunning will be the next president. A banquet will be held at the Windsor hotel tonight for the delegates and their ladies will be entertained at a theater party.

HELP THE GIRLS!

BUREAU ANGERED BY MILLINGMANS WEATHER REPORT

Winnipeg Boosters Indignant
at Consul General's Statements
About the Cold.

MAY ASK U.S. FOR HIS RESIGNATION

Motion to Make Request Carried
But Later Reconsidered—Will Ask Revision

Winnipeg, June 11.—At a meeting of the Industrial Bureau yesterday afternoon violent exception was taken to statements made about Winnipeg and its winter climate supposedly forwarded to Washington by United States Consul General Dillingham printed in April issue of the Consular Trade report.

The passages which aroused the ire of the board were to the effect that Winnipeg would be a nice place to live in were it not for the fact that the winters are very long, that the thermometer often hovers about 55 below, and that the winter lasts from October until June, and that the climate is responsible for the prevalence of pneumonia, rheumatism and other kindred "cold weather diseases."

A motion was made that the secretary of state of Canada be requested to advise the United States government for the resignation of Consul General Dillingham. This resolution, put immediately after the reading of the offensive sentences, was actually passed, but in the course of the discussion the members of the board decided to appoint a committee of three to wait on Mr. Dillingham, point out the injustice done Winnipeg and western Canada, ask that the consul revise his report in accordance with the facts and give the revision much publicity as the original report. Mr. Cox added: "And if Mr. Dillingham does not revise his report, we will ask the secretary of state to be asked to take steps for his resignation."

Several strong statements were made during the discussion. One member remarked that if we have a thoughtful consul general here, he should be asked to resign. W. J. Bulman said: "It is time that this lying about Winnipeg was stopped. If his official report, which has been published and sent throughout the United States, the consul general is not representing us."

In view of the sweeping statements made in the report, it should be stated that it was only on October 14, 1913, that Mr. Dillingham took over the position of consul general here.

RECOMMEND AWARD OF CONTRACT FOR COMFORT STATION

The awarding of the contract for the construction of the comfort stations at the market building, to Olson and Johnson was recommended by the city commissioners at the regular meeting yesterday afternoon. The contract price is \$7,000. The acceptance of the bid of the Somerville Hardware company for plumbing tender was recommended. The price is \$13,900. The commissioners passed favorably on the recommendation that J. M. Keith, a ledger keeper in the stores department be promoted to cashier and that Joseph Marshall, a night watchman in the same department, be given the position as freight clerk.

Edmonton Man Elected.
Winnipeg, June 11.—William Kepp, Edmonton, was yesterday elected president of the Northwestern Landmen's association, to succeed William Nelson. The three vice-presidents chosen were C. S. Parrow, for southern Alberta; S. Parrow, for Saskatchewan; and A. Munshaw, for Manitoba. The directors named were N. J. Davidson, Calgary, and S. G. Rutherford, Winnipeg. J. A. Davidson was unanimously elected secretary-treasurer of the association and by motion the services of a stenographer were given him. Edmonton was chosen as the place for the body to hold its annual convention next year.

Seven Men Sentenced.
Vancouver, June 11.—Seven men, formerly connected with the C.P.R., have been convicted of robbery at the Kamloops assizes and sentenced to three years in the penitentiary, each. For some time the Canadian Pacific railway divisional yards at Kamloops have been robbed, and in all more than 100,000 worth of goods were taken. Suspicion finally fell on friends of the yardmaster, T. H. Cooper, who lives in a secluded locality. Several followers and a large quantity of goods found.

ESTIMATES SEEN ON PROPOGANDA HOUSE COMMONS

Thirty Millions of Dollars Voted
By Parliament in Few
Hours.

PARCELS POST SYSTEM SUBJECT TO CRITICISM

British Government Awaiting
Development of Wireless
Across Atlantic.

OTTAWA, June 11.—Despite the decision to put the redistribution bill on the statutes before prorogation takes place, the members of both houses expected the end of the session to come this week. The end is expected to be on Friday, and if not then, Saturday. The disposition to wind up business was plainly evident in the House of Commons yesterday, when millions upon millions of money was voted, including no less than thirty millions for the department of public works. As one member put it: "The estimates were upon the toboggan slide." In all thirty millions was voted.

The money voted included the portions of the main estimates not hitherto voted and the supplementary estimate brought down a few days ago. Practically all the departments were concerned and throughout the day one minister after another explained the remaining items that he desired to have voted and replied to the criticisms of the opposition.

Concurrence in the estimates voted, and the redistribution bill, is about all the business the Commons has still to dispose of, while the work of the day done by the senate is practically confined to the redistribution bill.

At the evening sitting Hon. R. LeMieux gave a general review of the policy of the post office department in some matters and asked for a statement in regard to it from Hon. Mr. Pelletier.

He hoped the British magazine post would not be done away with because of friction between the British and Canadian post office departments. He also expressed the hope that something might be done to cheapen cable rates. Mr. LeMieux then referred to the parcels post and stated that whereas in the United States it had been so successful as to put the express companies out of business in Canada it had proved to be more or less of a gold brick, and was not a success at all. Speaking, he certainly had not reduced the high cost of parcels post, and he said that when the rates were considered, the parcels post rate beyond the twenty miles from Montreal was greater than the express rate. The Dominion Express company had even been led to issue a statement that it was not afraid of the competition of the parcels post.

Rural Mail Boxes.
In reply, Hon. Mr. Pelletier gave statistics as to the number of rural mail boxes now in use. The total number is 35,461 boxes, according to the latest statement obtainable, or about 100,000 up to date. Ontario leads with 17,177; Quebec is next with 2,093; Prince Edward Island 1,841; New Brunswick, 1,584; Nova Scotia, 1,014; British Columbia, 1,441; Manitoba, 685; Saskatchewan, 531; and Alberta, 510.

Mr. Pelletier said that the system was now making great headway in Quebec.

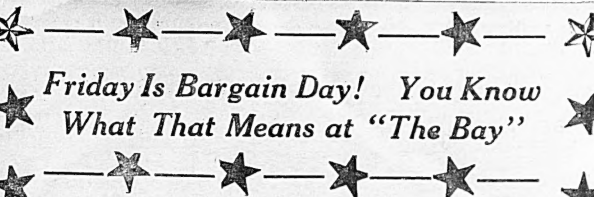

In regard to cable rates, the postmaster general stated that the Dominion wireless stations on the coast of Ireland and at New Castle, N.B., were almost completed. He would not go into the question of a new cable across the Atlantic for the reason that the home government had stated it would not join with Canada, New Zealand and other dominions affected in such a project until more was known of the extraordinary progress wireless telegraphy was making. The government had pointed out it would be necessary to lay two cables under the Atlantic and that it might afterwards be found that as good service could have been supplied by wireless.

Magazine Rates.
As regards British magazine rates, Mr. Pelletier said he would not budge an inch from his position that Canada should obtain a half-price for carrying these magazines from Liverpool to Vancouver, since the British post office obtained now one penny for carrying them only from London to Liverpool. He thought the British authorities would accept his proposition.

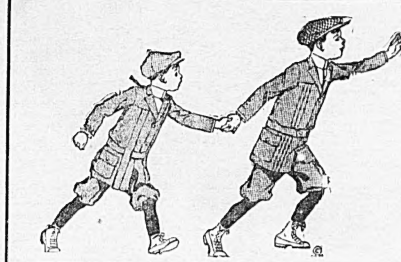

Mr. Pelletier said that there had been an organized war in Liberal newspapers against this cable concession. He read a list of clippings of an article published in all the Liberal weeklies in Canada.

Mr. LeMieux: "There is the same feeling all over Canada." Mr. Pelletier: "It is an extraordinary fact that the same feeling is expressed in exactly the same words."

This campaign, he said, had had its effect against the parcel post. The latter was increasing steadily in spite of it. Mr. Pelletier said he had in mind the establishment of a collecting system of parcels post as well as a delivery system.

**Friday Is Bargain Day! You Know
What That Means at "The Bay"**

Let's See! Wire Netting Wasn't It?
YES, YOU'VE THOUGHT OF IT. EVERYBODY KNOWS ITS AGGRAVATING ENOUGH TO DRIVE A PERSON WILD—but what can you do if a quartette of quadrupeds from your neighbors' kennels tear headlong over your freshly made flower beds? Can't shoot them for fear of his ire—but, happy thought, you can have the luxury of Wire Netting—an ample protection.

"Friday Only" Bargain in Wire Netting

- 18 inch. Special per roll of 50 yards. \$1.75
 - 24 inch. Special per roll of 50 yards. \$2.15
 - 30 inch. Special per roll of 50 yards. \$2.55
 - 36 inch. Special per roll of 50 yards. \$3.00
 - 48 inch. Special per roll of 50 yards. \$3.75
 - 60 inch. Special per roll of 50 yards. \$4.75
 - 72 inch. Special per roll of 50 yards. \$5.50
- Set of Three Aluminum Sauce Pans. Regularly \$2.00. Special, per set. \$1.00**
- 4 Only Pioneer Wagons. Regularly \$5.00. Special, each. \$2.50**
- 2 Pt. Barb Wire, 80 roll spool. Special \$3.25**
- 4 Pt. Barb Wire, 80 roll spool. Special \$3.40**
- Special Price on Axes. Regularly \$1.25. Special, each. \$1.00**
- (Only one to each customer.)
- Lawn Mowers, Garden Tools, Watering Cans, Etc.**

HARDWARE—FLOOR THREE.

Even \$400 Millinery Mounts 50c

ONE CAN HARDLY IMAGINE ANYTHING so perfectly surprising as this announcement. Yet there is no magic about it. Just Friday Bargain contention spread to the Millinery Salon. Give this Sale a Half Day to run and you can figure out for yourself how few of these Mounts will be left.

"Stick-ups" and Fancy Things

Dressings for the new hat you have in mind to trim for yourself, that will appeal to you. There are wings, that might have lent Mercury speed—novelties of a dozen kind—many from Paris herself. Desirable colors and combinations of color. High as \$4.00 values. Friday Bargain, each. \$3.00

Flower Wreaths—New Ones

Their just came in. They are composed of roses, in Blue, Cream, Tea and Pink combined with delightful foliage. Wreaths such as these would prize. They are a splendid value at each. \$1.00

ESKIMOS DROP DOUBLE-HEADER TO QUAKERS AND TAKE CELAR POSITION IN THE LEAGUE

Afternoon Game Was Won and Lost. Evening Game Was Tie for Eight Innings. A Few Erratic Plays Put Both Games on the Kibosh. Quakers Have Dandy Team—Sammy Beer Wins His Ninth Game—Spaulding Outpitched Kallio But Poor Support Lost Game.

Blame it on what you will and the result is just the same. For the Eskimos lost two more games yesterday to Bill Hurley's Quakers and are now in honorary position at the bottom of the league. Six weeks ago they were there before and now after sliding up and down the ladder, a step at a time, first up and then down, they are back to the starting point.

But talk as you like, yougottahandit Bill Hurley's aggression as the best outfit in the league, but none of yesterday's games were terrible affairs. At least the matinee game was terrible, although the evening contest was close for a time and a wall that will be told in the following days.

The Afternoon Game
Well, the Eskimos lost. Everybody's looking for anything else these days. It was the matinee contest yesterday at Diamond Park. Ideal weather, two-and-a-half hours of play, and the score was 6 to 3.

And we were in the lead one at that. In the sixth inning, we led 2-0 but not for long. My, but the Quakers are the steady team. Just a matter of time before the rest of the league will prove that.

Costly Errors Again
Errors—well, yes—a few. Spaulding and Gollie one. Not so many, but they were expensive. Spaulding for the locals. Take a look at the box score and see if the Quakers got to him or not. It hits. Quite enough for one afternoon.

Sammy Beer was the flunker used by the victors. He struck out seven and walked but he had a look at the box score and see if the Quakers got to him or not. It hits. Quite enough for one afternoon.

Hard Luck Eddie
A switch in the Eskimos lineup seemed to help a bit. Clayton, grand in right field and Williams pitched second. Eddie Matts, the best little shortstop in the Eskimos got a lot in the mouth—but by a first—but by the ball. Night in the batting lineup too, when Bill Hurley, the best of the ball bouncers and hit Matts on the knee. Result—a swelled lip and considerable delay in the game.

Fortier's Good Fielding
In the sixth inning was the only time the locals showed signs of real life, and gathered three hits for as many runs. Fortier, O'Brien and Williams each gathered a single. Fortier swelled himself in gathering two, steady running outcries. One in the second of Walters, and another in the eighth off the same batter, which he placed from behind third after a long run. Harper and Harley also sprung a fancy catch not apiece.

Every player on the visiting team gathered one or more hits, and the first five men in the batting order gathered two apiece. Fortie, Williams and Williams scored the Eskimos only runs.

Unlucky Seventh.
The Quakers made the ball ring in the seventh. Beer hit for two runs and Collins was safe in a hunt along the base line. Harley singled to left but was caught at second when Wilson hit to the infield. Clutch singled through second to center, and Gollie threw low to third to catch the runner, but O'Brien missed, and the runner was safe.

Down in Bangkok, Siam
The Native got their wits together, also some very plant wits—when structured with today's lightest summer hat for Men—like a Snowflake. Went to work and studied them. Fortie, Williams and Williams scored the Eskimos only runs.

Spaulding Pitched Well
And Spaulding pitched fine ball for the home team. The Quakers' hits were well scattered and he walked but three and fanned as many. On more than one occasion he pitched himself out of a bad hole, once with the sacks all occupied. He was credited with one error, however, not knowing where to throw the ball when runners were on first and third. And when he did throw it, it was too late. However, he learned his lesson and when the same situation faced him shortly afterwards, he made sure of the play by throwing the runner out at first.

Not Was it for lack of hits that the Eskimos lost the game, for they gathered sufficient for three or four runs, but costly errors threw the game away. Of course, it is quite an ordinary occurrence with the locals and anything may be expected. They won the game, only to throw it away.

Further Kallio was Bill Hurley's selection for the evening's duty, and he acquitted himself in a most capable manner. Eight strike-outs and four walks tell his tale of woe. He was wise, if ever in trouble, and when the Eskimos did manage to hit his offerings, it was straight into an anxious catcher's mitt.

Matts Was Injured
And the bad luck didn't continue on the trail of the Eskimos, and more specially on the trail of Eddie Matts. As if the crack he got in the afternoon game was not enough, Eddie had to collide with a base runner, head-on, going down for the count, with a bleeding nose, sure jaw fracture, hip, hand and knee.

But there's no more talking. Hurley's got the team. Steady, reliable and lucky. They grab everything within reach, play errorless ball, hit when needed, and are generally—of course—good-natured and likeable. Of course they can well afford to be good-natured with a two-hundred point lead in the league race.

PRACTICE TONIGHT

There will be a senior lacrosse practice tonight after the baseball game on Diamond Park. A large attendance is requested in preparation for matches to be held in the near future.

OLD COUNTRY CRICKET

London, June 11.—Three of the country cricket matches started last Monday have been concluded, and in each case the successful players won by a good margin. Lancashire defeated Kent by an innings and 151 runs. Middlesex beat Warwickshire by ten wickets, and Northamptonshire beat Gloucestershire by 142 runs.

BRONKS BREAK LOSING STREAK. TAKE TWO GAMES FROM RED SOX. SPECK GAGE PITCHED A NO-HIT GAME

Vivian Made Three Throwing Errors in Afternoon—Batting Rallies in Ninth Inning Game Winners Both Games—Some Heavy Hitting in the Evening Game.

Calgary, June 11.—By ninth inning batting rallies the Bronks yesterday broke their long losing streak by taking both ends of the double-header with Regina. In the afternoon, Speck Gage pitched a perfect no-hit game, but would have lost because of Calgary errors if it had not been for a first batting rally in the ninth. Regina was leading 3 to 0, when the Bronks came to bat, but five hits in a row tied the score and after two that would have been out one that would have been a single as Beams scored from third with the winning run.

Bronks Break Errors
Calgary made four errors in the afternoon of the most glaring type. They were not errors of fielding batted balls but were bad overthrows of the bases after the ball had been fielded clearly and so the no-hit game can not be credited to the leniency of the scorers. Vivian made three of the errors, the first being an overthrow of first in completing a double play, the second an overthrow of second and the third a wild throw over first which allowed two runs to score. The other errors were made by Jones, who threw three to second to catch a man stealing.

Butterfield pitched almost as good ball for Regina as Gage did for Calgary and was given good support. The locals did not get a hit off Sedley until the seventh.

Some Heavy Hitting
In the evening the Red Sox were leading 5 to 2. In the ninth and two Calgary batters had been retired. Jeveraux went in as a pinch hitter for Lagette and drew a pass. Grant followed with a single and Strick delivered a triple which scored Jeveraux and Grant. Piper singled, scoring Strick and tying the score, and Beams uncorked a triple which scored Piper from first and won the game.

The Score by Innings:
Afternoon game: R H R
Regina 000 001 002—3 0 1
Calgary 000 000 004—4 9 4
Butterfield and Strick; Grant and Jones.
Evening game: R H R
Regina 000 000 026—10 8 1
Calgary 000 000 204—4 10 1
Berger and Roth; Hagstine and Jones.

LOCAL SOCCER NOTES

Bay Was Shot Out
The Sons of England defeated the Hudson's Bay last evening in a senior football game on the old exhibition grounds. The score was 8 to 0. The half time score was three to nil, goals being scored by Headford, Ockenden and Jennings. In the second period Ockenden tallied three more and Coward and Jennings each one. The lineup follows:
Hudson's Bay—Stone, McDermott, White, Stone, Lawson, Maitman, Mather, Purvis, Adams, Kerr.

15th Dragons—Goal, Turpin; backs, D. G. Garrett and R. S. Kay; half-backs, Taylor, Bainbridge and Walters; forwards, McCallum, Brown, Bice, Cooper and Smith.

15th Dragons—Goal, Perry; backs, Wright and C. Wright; half-backs, Pallister, Weaver and Focke; forwards, Alford, Stone, Sullivan, Ballentine and Yates.

HELP THE GIRLS!

P. A. makes men smoke hungry

Just you get a whiff of "the international joy smoke" and it's dollars to dough-nuts you beat it cross lots to the nearest store that sells tobacco—and stock up! The flavor and aroma of Prince Albert has got 'em backed off the boards. It sure will hit the spot with you—it does with more millions of men who smoke it in a pipe or cigarette than any other pipe or cigarette tobacco. Get the drift of that?

PRINCE ALBERT

the inter-national joy smoke

Just does all that we say it will do. It can't bite your tongue and it can't parch your throat. All this is because P. A. is made by a patented process that cuts out the bite! Why, this process has simply revolutionized smoking tobacco.

Prince Albert rolls up the bulkiest makin's cigarette you or any other man ever smoked. It puts the jolt of joy right into your system.

You can just do "makin's" sunrise to sunset and have a lot of fun. Why, P. A. in a cigarette is absolutely a revelation. You go to it!

Prince Albert is the largest seller in the United States. It has been sold into Canada by wholesale dealers and is sold by all of the leading retail dealers in one-eighth-pound lady red tin.

HAL BOY WINS
2:20 RACE AT
YORKTON RACES

Second Day's Program Witnessed by Increased Attendance.

Yorkton, June 11.—The crowd at the second day's races of the Yorkton driving club's spring meet were well yesterday by large numbers who came by special train from points as far west as Wynyard, and south to Melville, and the program included three harness races, three harness races, and three harness races.

Summary:

2:25 Trot—Holoka won; Prince of Wales, 2; Kid Cupid, 3. Time—2:15.

2:20 Pace—Hal Boy won; Dean Swift, 2; Cassie Dillard, 3. Time—2:18.

3 Furlongs, running—Joe Millner won; John P. 2; Queen May, 3. Time—1:51.

Five Furlongs, running—Temarog won; Leduc, 2; Little Bill, 3. Time—1:52.

2:35 Pace—A. J. B. won; Argoswood, 2; Lee Wah, 3. Time—2:15.

Six Furlongs—Grays Favorite won; Amos, 2; Shuron, 3. Time—1:19.

HATTERS BLANKED
BY MILLERS 3-0

A Dozen Hits Gathered in One of the Best Games of the Season.

Medicine Hat, June 11.—Moore Jaw beat the home team here yesterday 3 to 0. In the best game of the season The Robin Hoods started in the third right hits, with breaks of luck gave them the game. Hiters were even on hits and on errors also with one each to Seattle Brown and Danale. Unsurprisingly the decisions gave good satisfaction. The score:

Moore Jaw 002 000 010—3 6 1

Medicine Hat 000 000 000—0 6 2

EVENTS SELECTED
FOR DOMINION DAY
SPORTS SOUTH SIDE

The Dominion Day sports at the south side athletic grounds this year promise to be the most successful ever attempted in the history of the city. It is true that a number of the leading athletes will be attending the provincial championships at Medicine Hat on that day, but it is altogether likely that the number of entries and keen competition will exceed that of previous years.

The following is the list of events that will be run off on that day. There are both senior and junior events, with gold, silver and bronze watch for medals given to winners. There will be also a beautiful silver cup donated for the all-round championship. The following is the list:

Senior events—100 yards, 220 yards, 440 yards, 880 yards, 1 mile, 2 miles, 1 mile relay, four men; pole vault, running high jump, running broad jump, running hop-step-jump, 16 pound hammer throw, 56 pound weight, 16 pound shot-put, throwing discus, 120 yard hurdles; four-man tug-of-war team.

Junior events—100 yards, half mile, running high jump, running broad jump, half mile relay, four men; half mile scratch running race in aid attraction and gives the boys a chance to show their ability at the short middle distance.

There will be a five-a-side football tournament, restricted to eight teams, and a baseball tournament restricted to four teams. These are specially attractive events.

It has also been thought wise to put on another Will's cup road race before Dominion Day, and Wednesday, June 24, has been selected as the date. The race will commence at the Y. M. C. A. at 7 p.m. and in the neighborhood of 15 entries are expected. This will be a long and five-mile race and open to all amateurs.

Why Tires Are Cheap

The marked decline in the price of rubber tires for motorcars, and in fact, everything made from rubber, can be accounted for in the great development of rubber plantations in various parts of the tropics. Various species of trees that produce rubber have been in cultivation for the past seven or eight years. These great plantations have been conducted under modern business methods, with dividend-earnings always in mind. The consequence is the supply is greater than the demand and many new plantations are just coming into bearing, which will prove a great benefit to owners of automobiles.

Using Wrench as Vice

It is often desired to hold a small piece tight, in some way or other, while making repairs in the barn on the road and you say, "If I only had a vice I could do this right." A good way to utilize the jaws of an ordinary monkey wrench is to adjust the jaws of the wrench until the piece to be held and a short machine bolt can be slipped into the space. Then unscrew the nut until the piece is held so rigidly that you'll wonder why you had never thought of the kink yourself.

Yesterday's Major League Results

Brooklyn, June 11.—(National)—St. Louis: In the eleventh inning, Huggins drew his fourth base on balls of the game. Allen made a two-base wild throw. Moore's sacrifice bunt, and Cather made his third hit of the afternoon.

Boston, June 11.—(National)—Hills for extra bases at opportune moments gave Boston a victory over Pittsburgh yesterday, 11 to 2. Maranville, who made four hits in as many times at bat, scored three Boston runs.

New York, June 11.—(National)—Marquard pitched the first home game in weeks and New York easily beat Chicago in the opening game of the series by a score of 4 to 1.

Cleveland, June 11.—(American)—Eight runs in the fifth inning made on 7 hits, a base on balls and an error, gave the Athletics an easy victory over Cleveland yesterday 8 to 0.

Chicago, June 11.—(American)—Benz outpitched Johnson yesterday, holding Washington to one scratch hit and not walking a single batter. Chicago shut out the visitors 2 to 0. This was Chicago's fifth straight victory and Washington's fourth consecutive defeat.

St. Louis, June 11.—(American)—Boston hit Matt but won the first of the series from Detroit, 8 to 2, yesterday. Collins pitched a good game, but was responsible for both Detroit's runs scored in the fifth inning.

Chicago, June 11.—(President Johnson, of the American League, yesterday reinstated Manager Griffith and Outfielder Miller of the Washington team. They were suspended indefinitely on Monday for an altercation with Umpire O'Loughlin at St. Louis.

Philadelphia, June 11.—(National)—Batting rallies, aided by battery and fielding errors by the home team, in the first and eighth innings, gave Cincinnati a victory here yesterday 8 to 2. Herzog made three singles and a double in five times at bat, and he started three double plays which spelled excellent chances for Philadelphia to secure runs.

St. Louis, June 11.—(American)—A single, followed by two sacrifices, on which local fielders were charged with errors, followed by another single in the ninth, gave New York 2 runs, which enabled them to win 5 to 1.

Kansas City, June 11.—(Federal)—Buffalo and Kansas City played a no score game up to the twelfth inning yesterday, when the visitors, aided by Smith's home run with two men on the bases, scored four runs.

THE NORTHERN ALBERTA EXPLORATION CO., Ltd.,
EDMONTON, ALBERTA

Capital \$500,000, Divided Into 500,000 \$1.00 Shares

This Company, one of the pioneer companies in the endeavor to discover Oil in Northern Alberta, have since 1907 been carrying on operations at Fort McMurray. They have already put down two deep wells, one to a depth of 1532 feet, and the other to 1362 feet. In the first well, at a depth of 1323 feet, good indications of Oil were got, and again in the same well at 1338 feet another strata showing good indications of Oil was struck, but owing to the amount of water in the well it was impossible to tell anything of the quantity or the quality.

On account of these conditions, and the piping being too small to go further down, it was decided to abandon this well and put in a new plant and machinery, sufficient to go to a depth of from 2500 to 3000 feet if necessary. This plant was shipped down the river in the Spring of 1911, and boring operations carried on that summer.

In the second well at 940 feet a good showing of Oil strata, about 35 feet thick, was struck, and it was the opinion of the drillers that a good showing of Oil might have been obtained in this strata had they used Nitro Glycerine to shoot the well. At 1080 feet another vein of Oil-bearing strata was struck, but it being the opinion of the drillers that a big well would be struck at a greater depth, they continued until they reached 1362 feet, when, owing to the loss of the drilling bit, and being without necessary tools to recover it they had to give up operations, which they did late in December.

It will be seen from the above report of the operations that this company have done exceptionally valuable work and have practically proved the presence of Oil-bearing strata in the McMurray district, and that these discoveries have given great encouragement to development work in the North. Nearly \$120,000 has been already spent by this Company and it is their intention to continue operations at McMurray and carry on this work to a successful issue if at all possible.

This Company own and have the title to about 1296 acres of land at Fort McMurray.

They also have the Oil and Gas rights to this land; and there is also on their property an extensive deposit of asphalt, the particulars of which the following report by J. H. Russell gives some idea of its extent and value.

The asphalt on your property is the so-called "Tar Sands," really a Bituminous sand consisting practically ready pavement similar in composition to the sheet asphalt pavements with which we are so familiar in Edmonton, Winnipeg and all large cities in this country. A portion of this material, and taken off your property, was laid by me in Edmonton and Calgary in the fall of 1911, and is today proving how excellent it is for pavement purposes.

In addition to this, I was fortunate in discovering what I believed to be a perfectly unique formation of asphalt in your property last year. This is a seam about three feet thick composed of shells and perfectly saturated with asphalt, giving us, I believe, an asphalt answering to the best Bituminous

Limestone or Rock Asphalt of Europe and which is now so largely imported into this country.

This material is suitable for the very best class of asphalt paving, viz.: floors and roofs in buildings, sidewalks and all other forms of work for which a Mastic Asphalt is required. I do not hesitate to say that I consider there is a very considerable body of this material on your property. Beginning on Athabasca, where the exposure is continuous along the whole water front and varying in thickness from twenty to one hundred feet, the exposure is seen again on both banks of the Hanging Stone Creek, proving the strata to be unbroken thus far inland. Again on the Horse Creek which cuts the deposits east and west the strata is the same, proving still further the continuance of the mineral and offering an alternate means of access to those already indicated.

Yours truly,

(Sgd.) J. H. RUSSELL.

This Company has never exploited nor advertised their stock for public sale, but has had strong financial support and assistance from the following Edmonton citizens, who have been deeply interested in the development of that part of the country north of Edmonton. Among the heavy stockholders are His Hon. Lieut. Gov. Bulyea, John A. McDougall, Robert Lee, J. H. Gariepy, John Summerville, J. Henderson, E. J. Hart, H. A. Magoon, James Ross, E. T. Bishop, George Stockand, H. G. Morris, Palmer & McIntyre, C. W. Henry, C. Bremner, H. W. Brown, W. J. McNamara, Dr. A. C. Rutherford, William Short, James Ramsey, William Diamond, C. Gallagher.

It was deemed desirable that expert opinion should be obtained by the Company as to the proper location from a scientific or Geologists' point of view as to the location of a new well and this was obtained during the summer of 1913, and the Company was advised to move their plant to that part of their land lying between Horse Creek and Hanging Stone Creek, and continue their operations there. This will be done this year, and an outfit will leave for Fort McMurray in a very few days and a report of the work will be watched for with the keenest interest.

At an Annual Meeting of the Company which was held a few days ago the following officers were elected for the ensuing year.

Chairman—Ex-Mayor, Robert Lee.

Directors—J. H. Gariepy,

James Ross,

George Stockand,

E. T. Bishop,

H. A. Magoon,

George G. Lennox.

Secretary-Treasurer—A. C. Gillespie.

Credit Foncier Bank.

At a subsequent meeting of the Directors it was decided to start operations as soon as possible, and practically all arrangements have now been made and the party will leave Edmonton on June 9th to carry on the work this season.

ESKIMOS DROP DOUBLE-HEADER TO QUAKERS AND TAKE CELLAR POSITION IN THE LEAGUE

Afternoon Game Was Won and Lost. Evening Game Was Tie for Eight Innings. A Few Erratic Plays Put Both Games on the Kibosh. Quakers Have Dandy Team—Sammy Beer Wins His Ninth Game—Spaulding Outpitched Kallio But Poor Support Lost Game.

Blame it on what you will and the result is just the same. For the Eskimos lost two more games yesterday to Bill Hurley's Quakers and are now in basement position at the bottom of the league. Six weeks ago they were there before and now after sliding up and down the ladder, a step at a time, first up and then down, they are back to the starting point.

But talk as you like, youngsters and Bill Hurley's aggregation as the best outfit in the league, but none. Yesterday's games were terrible affairs. At least the machine game was terrible, although the evening contest was close for a time and then. Well that will be told in the following details.

The Afternoon Game.
Well, the Eskimos lost. Nobody's looking for anything else these days. It was the manner of yesterday day at Diamond Park. Ideal weather and two grounds rounding up into shape. The score was 6 to 3.

And we were in the lead once at that. In the sixth inning, Yes—2 to 2, but not for long. MS., the Quakers are the steady team. Just a little better than the rest of the team. Their records prove that.

Costly Errors Again.
Errors—well yes—in a few. Stallop, two and Gidde one. Not so many but they were expensive. Stallop for the locals. Take a look at the box score and see if the Quakers got to him or not. 15 hits. Quite enough for one afternoon.

Sammy Beer. was the flinger used by the victors. He struck out seven and walked two. Stallop passed two, but no one fanned. Empire Becker was in charge and did remarkably well. He perhaps the best seen here this season.

Hard Luck Eddie.
A switch in the Eskimos lineup seemed to help a bit. Clayton grazed in right field and Williams played second. Eddie Maite, the usual little shortstop of the Eskimos got a big on the mouth—not by a fist—but by the ball. Right in the middle of the head when Bill Hurley hit one on his way, and the ball bounced and hit Maite on the knee. Result—no play, considerable delay in the game.

Fortier's Good Fielding.
In the sixth inning, the only time the locals showed signs of real life, and gathered three hits for as many runs. Fortier, O'Brien and Williams each gathered a single. Fortier, O'Brien and Williams scored the Eskimos only runs.

Unlucky Seventh.
The Quakers made the ball sing in the seventh. Beer hit for two hits and Collins was safe in a hunt along the base line. Hurley singled to left but was caught at second when Wilson hit to the infield. Chick singled through second to center, and Gidde threw low to third to catch the runner, but O'Brien missed, and the run scored.

Down in Bangkok, Siam.
The Natives got their wit together, also some very plain witticisms, and structured what is today the lightest summer hat for Men—like Snowflakes. Went to town and dubbed them "Bangkok" hats in honor of the land of their origin. At Hudson's Bay this week, \$4.95 is the price.

came in thick and fast. Grover singled through short but was caught trying to steal. Four runs had crossed and the final score stood 6 to 2.

Saskatoon.

Nardye, 3b 4 0 1 2 0
Matt, ss 4 0 1 1 0
Walters, c 4 0 1 1 0
Totals 36 15 12 12

Score at a Tie.
Neither team scored for three innings but in the fourth rack gathered a run and it ran along like that until the Quakers decided they wanted the game, or the Eskimos decided they didn't want it, and during the mix-up, which included an aerial ascension by several members of the locals, two runs came in the game.

But to back back to the game, and where and wherefore thereof. The perfect baseball weather could not have been asked, and the diamond and outfield as new in better shape than any of the most desirable ones crowded on the field with hard in their hair and their ears pinned back.

The Peer Umpire Gets It.
But you can't blame the umpire this time—not altogether. It was simply a case of a good game beating a badly organized and disorganized one, and doing it to the Quakers' taste.

Spaulding Pitched Well.
And Spaulding pitched fine ball for the home team. The Quakers' hits were well scattered and he walked but three and fanned as many. On more than one occasion he pitched himself out of a bad hole, once with the strike all occupied. He was credited with one error, however, not knowing where to throw the ball when runners were on first and third. And when he did throw it, it was too late. However, he learned his lesson and when the same situation faced him shortly afterwards, he made sure of the play by throwing the runner out at first.

Not was it for lack of hits that the Eskimos lost the game, for they gathered sufficient for three or four runs, but costly errors threw the game away. Of course this is quite an ordinary occurrence with the locals and anything may be expected. They won the game, only to throw it away.

he acquitted himself in a most capable manner. Eight strike-outs and four walks tell the tale of woe. He was seldom, if ever in trouble, and when the Eskimos did manage to hit his offerings, it was straight into an anxious fielder's mitt.

And the hard luck continued to follow on the trail of the Eskimos, and more especially on the trail of Eddie Maite. As if the crack he got in the afternoon game was not enough, Eddie had to collide with a base runner, Johnson, going down for the count, with a bleeding nose, jaw and swollen lip. Hard Luck Eddie.

But there's no use talking. Hurley's got the team. Steady, reliable and lucky. They grab everything within reach, play errorless ball, hit when singled, and are generally afraid, good-natured and lucky. Of course they can well afford to be good-natured with a two-hundred point lead in the league race.

Hurley's running catch of Nordyke's fly to fly to center, was a fine play. He had and sounded like about a three banger, but Hurley decided otherwise.

Keep the Kids off.
The presence of a dozen or more kids playing around on all sides of the diamond, along the fences, does not help the game any, and they should be kept off. Where's the ground keeper?

The whole story of the Quakers' half of the ninth might be summed up in the one word—E-R-R-O-R-S. It was awful. Especially when the Eskimos had the chance of their lives to put the game out of the field and chalk a win.

That Awful Ninth.
Chick drew a pass, but Hurley went out, Lemieux to Williams. Grover hit, and as if the Eskimos were stupid, Harper, O'Brien to Nordyke, and Walters was safe when Nordyke failed to touch base after Maite had made a rather bum pass to the base. It looked to the freak as if Walters was out, not knowing that Nordyke had failed to tag him, and he started the attack upon umpire Becker. And then came the worst. Walters hit the dust for second and Lemieux in trying to throw him out, heaved the ball a mile over Williams' head. Gidde fielded the ball and to Williams, but that player let it go between his legs and into the corner behind third base. Lemieux took after it in trying to throw to the plate to catch a couple of runners, the ball hit the corner of the stand. Umpire called for runner back to second, and this caused more trouble. Kallio, the last man up, struck out, but a bunch of wild cries and cheers followed. There was a howl from the bleachers. Final score, 2 to 1 and the Eskimos' half of the ninth inning available for the record.

Practice Tonight.
There will be a senior lacrosse practice tonight after the baseball game on Diamond Park. A large attendance is requested in preparation for matches to be held in the near future.

Old Country Cricket.
London, June 11.—Three of the country cricket matches started last Monday have been concluded, and in each case the successful eleven won by a good margin. Lancashire defeated Kent by an innings and 153 runs. Middlesex beat Warwickshire by ten wickets, and Northamptonshire beat Gloucestershire by 142 runs.

The Lancashire-Kent match was contested at Manchester. Tyldesley (EC) and Heap were the highest scorers for the winners, with 55 and 57 respectively. For Kent, Woolley (P.E.) and Hubble were high batsmen, with 57 and 51 respectively. Huddleston took seven of Kent's wickets for 79 runs.

Yorkshire beat Derbyshire by a complete innings, Wilson, for the victors, was accounting for 101 runs. The game between Hampshire and Nottingham ended in a draw. The high scores were, Gunn, for Nottingham, 96, and Iremonger, 45.

At Lord's some brilliant bowling was accomplished by Traill, who took seven Warwickshire wickets for 59 runs. Middlesex high scorers were W.P. Robertson 95, and Tarrant 82, while C. Baker and Parsons made 65 and 59 respectively for Warwick.

8. G. Smith was in excellent form with the ball for Northamptonshire against Gloucestershire at Bristol, taking four wickets for 28 in the first innings and five for fifty in the second. J. G. Thompson also had the Gloucestershire batsmen guessing, and four of their wickets fell for 27 as the result of two splendid wickets. Gloucestershire also shone in the bowling. Bennett taking seven wickets for 72.

Branks Made Errors.
Calgary made four errors in the afternoon of the most glaring type. They were not errors of feeling, but of balls but were bad overthrows of the bases after the ball had been fielded cleanly and so the no-hit game can not be credited to the tenacity of the scorers. Vivian made three of the errors, the other being an overthrow of first in completing a double play, the second an overthrow of second and the third a wild throw over first when allowed two runs to score. The other

Some Heavy Hitting.
In the evening the Red Sox were leading 5 to 2. In the ninth and two Calgary batters had been retired. Devereaux went in as a pinch hitter for Jagtore and drew a pass. Grand followed with a single and Strish delivered a triple which scored Devereaux and Grand. Tupper singled, scoring Strish and tying the score, and Reams unraveled a triple which scored Tupper from first and won the game.

The score by innings:
Afternoon game: R H E
Regina 000 00 062—3 6 1
Calgary 000 00 004—4 9 4
Interf. and Strish: Gage and Jones.
Evening game: R H E
Regina 100 020 050—5 8 1
Calgary 000 00 004—4 9 4
Berger and Roth: Baptiste and Jones.

Local Soccer Notes.
The 19th Dragons were the victims of a 4 to 2 defeat at the hands of the Sedle Press last evening on the south side grounds. At the interval the score was 2 to 0, but the latter being by Rice and Brown for the winners.

After the intermission Sedle went ahead some more via Cooper, who netted two more counters. The lineup follows:
Sedle Press—Goal, Turpin; backs, D. G. Garrett and R. S. Kay; half-backs, Taylor, Hetherington and Warren; forwards, McCullum, Brown, Rice, Cooper and Smith.

19th Dragons—Goal, Perry; backs, Wright and C. Wright; half-backs, Ballister, Weaver and Ford; forwards, Alford, Stone, Sullivan, Dillan-lyne and Yates.

P. A. makes men smoke hungry

Just you get a whiff of "the international joy smoke" and it's dollars to dough-nuts you beat it cross lots to the nearest store that sells tobacco—and stock up! The flavor and aroma of Prince Albert has got 'em all backed off the boards. It sure will hit the spot with you—it does with more millions of men who smoke it in a pipe or cigarette than any other pipe or cigarette tobacco. Get the drift of that?

PRINCE ALBERT

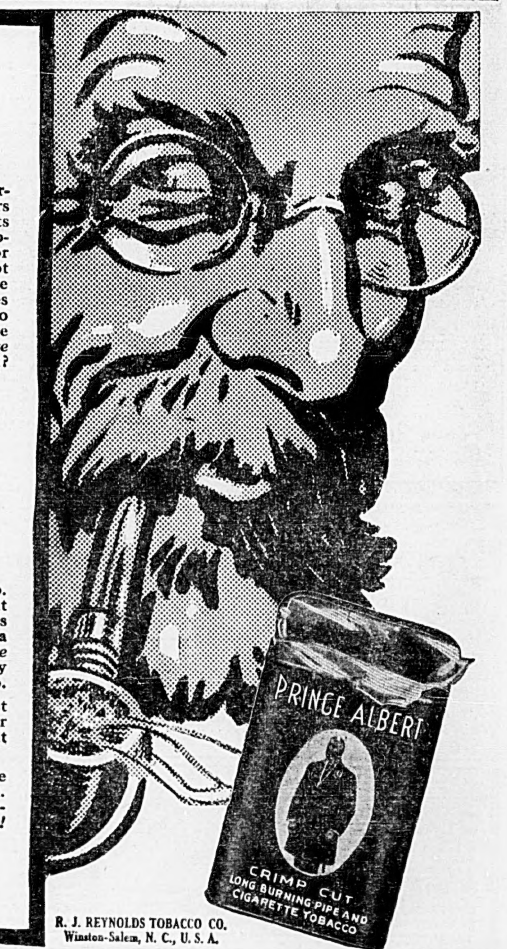

the international joy smoke

just does all that we say it will do. It can't bite your tongue and it can't parch your throat. All this is because P. A. is made by a patented process that cuts out the bite. Why, this process has simply revolutionized smoking tobacco.

Prince Albert rolls up the bulkiest makin's cigarette you or any other man ever smoked. It puts the jolt of joy right into your system.

You can just do "makin's" sunrise to sunset and have a lot of fun. Why, P. A. in a cigarette is absolutely a revelation. You go to it!

Prince Albert is the largest seller in the United States. It is now being imported into Canada by wholesale dealers and is sold by all of the leading retail dealers in one-eighth-pound tidy red tins.

HAL BOY WINS 2:20 RACE AT YORKTON RACES

Second Day's Program With-
nessed by Increased At-
tendance.

Yorkton, June 11.—The crowds at the second day's races of the Yorkton Driving club's spring meet were well-attended yesterday by large numbers who came by special train from points as far west as Wynyard, and south to Melville, and the program included six events, three harness races, and three running.

Summary:
2:25 Trot—Hobbs won; Prince of Wales, 2; Kid Cupid, 3. Time—2:15.
2:30 Pace—Hal Boy won; Dean Swift, 2; Cassie Dillard, 3. Time—2:18.
3 Furlongs, running—Joe Miller won; Bob F., 2; Queen May, 3. Time—1:01.
Five Furlongs, running—Temagou won; Leduc, 2; Little Bill, 3. Time—1:02.
2:35 Pace—A. J. B. won; Argotwood, 2; Lee Wain, 3. Time—2:14.
3 Furlongs—Grays Favorite won; Arny, 2; Shuron, 3. Time—1:13.

HATTERS BLANKED BY MILLERS 3-0

A Dozen Hits Gathered in One
of the Best Games of
the Season.

Medicine Hat, June 11.—Moore won the home team here yesterday, 3 to 0, in the best game of the season. The home team kept the third with two runs and kept safe. The right hits, with breaks of luck, gave them the game. Honors were even on hit and on error also with one each to Santos Brown and Danille. Umpire Whalen's decisions gave good satisfaction. The score:
Moore won 002 660 010—3 0 1
Medicine Hat 000 000 000—0 0 2

Using Wrench as Vise
It is often desired to hold a small piece tight, in some way or other, while making repairs in the barn or on the road and you say, "If I only had a vise I could do this all right." A good way to utilize the jaws of an ordinary monkey wrench is to adjust the jaws of the wrench until the piece to be held and a short machine bolt can be slipped into the space. Then unscrew the nut until the piece is held as rigidly as you'll wonder why you had never thought of the kink your self.

THE NORTHERN ALBERTA EXPLORATION CO., Ltd., EDMONTON, ALBERTA

Capital \$500,000, Divided Into 500,000 \$1.00 Shares

This Company, one of the pioneer companies in the endeavor to discover Oil in Northern Alberta, have since 1907 been carrying on operations at Fort McMurray. They have already put down two deep wells, one to a depth of 1332 feet, and the other to 1362 feet. In the first well, at a depth of 1323 feet, good indications of Oil were got, and again in the same well at 1338 feet another strata showing good indications of Oil was struck, but owing to the amount of water in the well it was impossible to tell anything of the quantity or the quality.

On account of these conditions, and the piping being too small to go further down, it was decided to abandon this well and put in a new plant and machinery, sufficient to go to a depth of from 2500 to 3000 feet if necessary. This plant was shipped down the river in the Spring of 1911, and boring operations carried on that summer.

In the second well at 940 feet a good showing of Oil strata, about 35 feet thick, was struck, and it was the opinion of the drillers that a good showing of Oil might have been obtained in this strata had they used Nitro Glycerine to shoot the well. At 1080 feet another vein of Oil-bearing strata was struck, but it being the opinion of the drillers that a big well would be struck at a greater depth, they continued until they reached 1362 feet, when, owing to the loss of the drilling bit, and being without necessary tools to recover it they had to give up operations, which they did late in December.

It will be seen from the above report of the operations that this company have done exceptionally valuable work and have practically proved the presence of Oil-bearing strata in the McMurray district, and that these discoveries have given great encouragement to development work in the North.

Nearly \$120,000 has been already spent by this Company and it is their intention to continue operations at McMurray and carry on this work to a successful issue if at all possible.

This Company own and have the title to about 1296 acres of land at Fort McMurray.

They also have the Oil and Gas rights to this land; and there is also on their property an extensive deposit of asphalt, the particulars of which the following report by J. H. Russell gives some idea of its extent and value.

"The asphalt on your property is the so-called 'Tar Sands,' really a Bituminous sand constituting practically ready pavement similar in composition to the sheet asphalt pavements with which we are so familiar in Edmonton, Winnipeg and all large cities in this country. A portion of this material, and taken off your property, was laid by me in Edmonton and Calgary in the fall of 1911, and is today proving how excellent it is for pavement purposes.

"In addition to this, I was fortunate in discovering what I believed to be a perfectly unique formation of asphalt in your property last year. This is a seam about three feet thick composed of shells and perfectly saturated with asphalt, giving us, I believe, an asphalt answering to the best Bituminous

Limestone or Rock Asphalt of Europe and which is now so largely imported into this country.

This material is suitable for the very best class of asphalt paving, viz.—floors and roofs in buildings, sidewalks and all other forms of work for which a Mastic Asphalt is required. I do not hesitate to say that I consider there is a very considerable body of this material on your property. Beginning on Athabasca, where the exposure is continuous along the whole water front and varying in thickness from twenty to one hundred feet, the exposure is seen again on both banks of the Hanging Stone Creek, proving the strata to be unbroken thus far inland. Again on the Horse Creek which cuts the deposits east and west the strata is the same, proving still further the continuance of the mineral and offering an alternate means of access to those already indicated.

Yours truly,
(Sgd.) J. H. RUSSELL.

This Company has never exploited nor advertised their stock for public sale, but has had strong financial support and assistance from the following Edmonton citizens, who have been deeply interested in the development of that part of the country north of Edmonton. Amongst the heavy stockholders are J. H. Gariepy, John Summerville, J. Henderson, E. J. Hart, H. A. Magoon, James Ross, E. T. Bishop, George Stockand, H. G. Morris, Palmer & McIntyre, C. W. Henry, C. Brenner, H. W. Brown, W. J. McNamara, Dr. A. C. Rutherford, William Short, James Ramsey, William Diamond, C. Gallagher.

It was deemed desirable that expert opinion should be obtained by the Company as to the proper location from a scientific or Geologists' point of view as to the location of a new well and this was obtained during the summer of 1913, and the Company was advised to move their plant to that part of their land lying between Horse Creek and Hanging Stone Creek, and continue their operations there. This will be done this year, and an outfit will leave for Fort McMurray in a very few days and a report of the work will be watched for with the keenest interest.

At an Annual Meeting of the Company which was held a few days ago the following officers were elected for the ensuing year.

Chairman—Ex-Mayor, Robert Lee.
Directors—J. H. Gariepy, James Ross, George Stockand, E. T. Bishop, H. A. Magoon, George G. Lennox.
Secretary-Treasurer—A. C. Gillespie, Credit Foncier Block.

At a subsequent meeting of the Directors it was decided to start operations as soon as possible, and practically all arrangements have now been made and the party will leave Edmonton on June 9th to carry on the work this season.

Yesterday's Major League Results

Brooklyn, June 11.—(National)—St. Louis beat Brooklyn in the eleventh inning, 6 to 4, yesterday, when Huggins drew his fourth base on balls of the game. Allen made a two-base wild throw, Mago's sacrifice bunt, and Cather made his third hit of the afternoon.

Boston, June 11.—(National)—Hits for extra bases at opportune moments gave Boston a victory over Pittsburgh yesterday, 11 to 2. Maranville, who made four hits in as many times at bat, scored three Boston runs.

New York, June 11.—(National)—Marquard pitched the first home game in weeks and New York easily beat Cleveland in the opening game of the series by a score of 4 to 1.

Cleveland, June 11.—(American)—Eight runs in the fifth inning made on 7 hits, a base on balls and an error, gave the Athletics an easy victory over Cleveland yesterday 8 to 0.

Chicago, June 11.—(American)—Benz outpitched Johnson yesterday, holding Washington to one scratch hit and not walking a single batter. Chicago beat out the visitors 2 to 0. This was Chicago's fifth straight victory and Washington's fourth consecutive defeat.

Detroit, June 11.—(American)—Benton hit Muth hot and won the first of the series from Detroit, 8 to 2, yesterday. Collins pitched a good game, but was responsible for both Detroit's runs scored in the fifth inning.

Chicago, June 11.—(Federal)—Johnson, of the American league, yesterday reinstated Manager Griffith and Outfielder Mullen, of the Washington team. They were suspended indefinitely on Monday for an altercation with Umpire O'Loughlin at St. Louis.

Philadelphia, June 11.—(National)—Biting rallies, aided by battery and fielding errors by the home team, in the first and eighth innings, gave Cincinnati a victory, here yesterday 8 to 2. Herzog made three singles and a double in five times at bat, and he started three double plays which spoiled excellent chances for Philadelphia to secure runs.

St. Louis, June 11.—(American)—A single, followed by two sacrifices, on which local fielders were charged with errors, followed by another single in the eighth, gave New York 2 runs, which enabled them to win 5 to 3.

Kansas City, June 11.—(Federal)—Buffalo and Kansas City played a no score game up to the twelfth inning yesterday, when the visitors, aided by Smith's home run with two men on the bases, scored four runs.

A. AND G. W. ROAD WILL DEVELOP OIL FIELDS OF NORTH

Edmonton Company Sending
Another Drilling Outfit to
Fort McMurray.

**STRIKE HEAVY FLUID
AT 110 FEET DEPTH**
Lack Modern Facilities Holds
Progress Back—New Rail-
way Needed.

The Northern Alberta Exploration company, limited, with headquarters in Edmonton and with Edmonton capital at its head, has issued instructions to L. F. Beal, who has had years of experience in oil drilling in the oil fields, to proceed with the company's holdings, immediately adjoining Fort McMurray at the mouth of the Athabasca River. Clear water, with a party of 12 men, and drill another well. The party will go north on Saturday.

Up to the present about \$120,000 have been expended in development of these fields, which consists of oil and gas. The product will be one of the most profitable in the world. This company has such large fields and has been successful in the oil fields, and has been successful in the oil fields, and has been successful in the oil fields.

POLICE COURT

A number of charges laid against keepers and frequenters of disorderly houses were disposed of at a special sitting of the police court yesterday afternoon. Annie Wainman, for being found in the Acme rooms, was fined the sum of \$25.00 and costs. The accused pleaded not guilty to the charge. Myrtle Collins entered a plea of not guilty to a charge of being found in a house at 784 Jasper avenue east. There was nothing to show that she had been acting in a house other than a proper manner and the case was dismissed.

Effie Briscoe and Grace Doyle were also dismissed on a similar charge, being found in the same rooms. The latter claimed to be the owner of the house, a domestic at the place in question. Guy Middleton, another woman found in the same house, stated that she was rooming there, and working at the Expert Window Cleaning company's. After being given a severe warning by his worthiness, she was allowed to go on suspended sentence.

Eva Smith and K. Williamson appeared on a charge of being found in a house at 532 11th street. Both pleaded not guilty. After hearing the evidence in the case, the court ordered a fine of \$25.00 and costs to Williamson and \$20.00 and costs to the girl.

Della Morris and Effie Grushaw each pleaded not guilty to a charge of being found in the same house, at the National rooms. The case against them was dismissed for lack of sufficient evidence.

Charged with inciting youths to commit theft, Israel Bloomfield appeared before Magistrate Macleod in the police court this morning. The accused was remanded on bail until Saturday. It is alleged that Bloomfield was the manager of a jewelry store, and that he had incited a number of youths to steal a quantity of copper wire and other material from the street railway.

He was taken into custody yesterday afternoon by Detective Broadbent. Owing to the fact that the youngsters were in attendance at school, it was found necessary to lay the case over until Saturday.

Lawrence Heimick, for excessive drinking, was interdicted for two years. It appears that Heimick was a member of the "Bachelors' Club" and sister while under the influence of liquor. "I want you to behave yourself in the future," remarked the magistrate. "If you are caught in the act of a bar or drinking in the above place, you will be given six months." P. Nelson, a colored young man, was up on a charge preferred against him of living wholly or partly off the avails of prostitution. He was remanded until Tuesday, next, bail being fixed at \$1,000, two sureties of \$500 each.

Another colored gentleman appeared on a charge of vagrancy. A remand was asked until Tuesday, next, but the authorities wished to have the case laid over pending the possibility of another charge being laid against him. The case was allowed \$50.00 cash bail.

Edmund Yolk, a youth, who gave his name as 26, appeared for being under the influence of liquor. He stated that he did not procure the same in a bar but that he had been bought by some other of the party he was with. The boy, who presented a very young appearance, told his story that he had never been drunk before. He was given over to the protection of the Salvation Army, the magistrate instructing the captain to look into the case.

John Mason, who was taken into custody by Detective Broadbent last night, was charged with vagrancy. It appears that he had been found begging on the streets. He claimed this morning that he had only arrived in the city and was on his way north. He appeared to be half-witted and "drunk." If you give me a chance I will leave town, his worthiness, he said. "No man needs to beg the way he is as long as he can," replied the magistrate, thirty days hard labor.

Ward went up on a charge of vagrancy, also. Constable Johnson stated that he had been found intoxicated and had been wandering about the streets doing nothing for some time. He was let off on suspended sentence for a previous offence on May 28.

Another colored man, who had been employed at night in a local cafe, was remanded until Tuesday, next, for being under the influence of liquor. He was given over to the protection of the Salvation Army, the magistrate instructing the captain to look into the case.

A GROUPING OF EARLY SHOPPING CHANCES MEASURED BY THE FRIDAY ECONOMY RULE

FOR tomorrow, Bargain Day, we have measured prices by a saving rule. There's not an article chronicled below that measures up to the Johnstone Walker interpretation of a Friday bargain—and that's value that no other store begins to give week in and week out. Coming by a short cut to the kernel of the day's offerings—read on, carefully, and judge for yourself.

White English Bedspreads 95c
Regularly \$1.25

A BARGAIN that mustn't be judged solely by the saving offered for they're an important value at their regular pricing of \$1.25.

Values so good that we have to limit the quantity to 150 only at this price. Made of fine bleached Egyptian cotton yarn in crocheted weave; neatly hemmed. Suitable for hotels, rooming houses or private homes. Size 66 by 90. Regularly \$1.25. Friday Bargain.

Reg. \$3.50 to \$3.75
Camping Blankets \$2.50

CAMPING and summer cottage blankets at savings of \$1.00 to \$1.25 will prove one of the day's most popular savings.

They are shown in several shades of grey, made from Canadian wool yarns in 6 to 7 lb. weights. Sizes 60 by 90 and 68 by 78. Regularly \$3.50 to \$3.75. Friday Bargain. \$2.50

Women's 75c Vanity Bags
Bargain Priced 50c

EVERY woman whose eyes meet with these handy vanity bags at 50c will instantly make a purchase.

They are in a nice convenient size, 8 by 8 inches, in a popular style, made of black seal grain leather, with moiré lining and strap handles, mounted on a strong metal base. Extra good value at regular pricing 75c. Friday Bargain.

Women's Silk GARTERS
1/2 Price

WE simply can't think of promising to supply the demand for these garters all day at this price—so hurry around early. They are of silk, made in white, mauve, sky or pink with ornamental silk buckles. Regularly 40c. Friday Bargain.

Women's 35c NECKWEAR
in a Bargain Day Clearance at 17c

A BARGAIN Day Clearance of odd lines in women's daily jobs at Half Price will bring an early rush to the neckwear counter.

They are fashioned in fine shades of blue, green or red in white or cream in dainty pleated styles; some embroidered, others trimmed with colored velvet bows. Regularly 35c. Friday Bargain.

Infants' and Children's Gowns at 75c

THEY are of the finest flannel made in most stripe patterns. Made on yoke with open front. Sleeves and neck finished with silk stitched trim of soft, infant's up to size 14 years. Friday Bargain.

Children's 50c to 60c Mexican HATS, Friday 39c

A COOL, serviceable summer hat for holiday wear.

Made of strong flat braided Mexican straw with linen bound edges and leatherette band. Assorted sizes and bindings. Regular 50c and 60c. Friday Bargain.

Women's Dressy and Serviceable Raincoats at \$5.75

EVERY WOMAN who is fortunate enough to get here in time to secure one will go home realizing the meaning of the word bargain at Johnstone Walker's.

They are of rubberized cashmere and poplin, in fawn, russet, navy or black; made in the loose straight effect with ragnan or set-in sleeves, storm collar and pocket on either side; extra good value. Regularly \$6.00 to \$8.50. All sizes. Friday Bargain.

Boys' Shirts, Underwear and Hose at Generous Reductions

SCORES of parents who have learned to look to this store for everything in boy's wear will be pleasantly surprised to find almost everything the young man wants for summer at generous reductions Friday.

Boy's 85c Shirts at 69c

They are splendid shirts for holiday wear in strong drill in khaki or navy blue with collars attached. Sizes 12 to 14. Regularly 85c. Friday Bargain.

Boy's 50c Underwear at 35c

They are in the famous "Buster Brown" or "Hercules" brands in heavy ribbed black cotton yarn. Will give excellent service. Sizes 7 to 10. Regularly 50c per pair. Friday Bargain.

Boy's 25c Summer Hose, 5 Pairs for \$1.00

They are in the famous "Buster Brown" or "Hercules" brands in heavy ribbed black cotton yarn. Will give excellent service. Sizes 7 to 10. Regularly 25c per pair. Friday Bargain.

Women's \$2.50 to \$5.00 Values in PUMPS, OXFORDS and BOOTS Clearing Friday at \$1.45

IT'S a Bargain Day Clearance of small sizes, well worth while paying the store an early visit in order to look them over. The grouping includes Pumps, Oxfords and Boots at savings of anywhere from \$1.00 to \$3.50 or in other words, it's possible to choose 3 pairs for the usual price of one! Where's there a woman who wears sizes 2 to 3 1/2 who can afford to overlook such an extraordinary bargain?

The clearance includes a wonderful variety of styles in patent leather, gunmetal and dogskin in black or tan, also suedes, satins and velvets. Pump and Oxford in almost every style for which a woman could ask; while the boots are in button or lace with various shaped toes, turn soles, Goodyear welt and McKay sewn. Small sizes only 2 to 3 1/2. Regular \$2.50 to \$5.00 values. Friday Bargain.

BED SHEETS at \$1.50
Fr Regularly \$1.75 & \$2

RED HERMED bed sheets, made from fine English "Wigan" sheeting cotton in a nice even weave, free from dressing. Full sized and sizes 72 by 90 inches. Regularly \$1.75 and \$2.00. Friday Bargain.

Women's and Misses' SUMMER COATS
Half Price for Bargain Day

HALF PRICE for any suit in stock created such a whirl in the ready-to-wear sections Wednesday morning that we've decided on a similar offering for Bargain Day. And urge all who possibly can to hurry round early. Every solitary coat in stock is included and there's a style to please every woman's fancy at just one half the regular selling value.

These Coats are all this season's latest styles and colorings, such as the new blue, tan, fawn, grey, cardinal, Russian green, cerise, navy's or black, in the short sport and the fashionable three quarter cutaway styles, trimmed on the collar and cuffs with fancy or plain colored silks, and fancy button fasteners. All sizes. Prices ranging from \$10.00 to \$35.00. Friday Bargain.
